

Dear Students:

Please note the followings:

1. With regard to the final exam:

- (a) It will be held on June 10, 18:00-19:30.
- (b) It will cover Molecular Dynamics, Classical Monte Carlo, One-body Quantum Mechanics, and Many-body Quantum Systems (Exact Diagonalization, and some basics of Quantum Monte Carlo), excluding materials to be taught in the coming Monday afternoon.
- (c) The exam style is similar to the midterm, but less problems and less programing.

2. With regard to the project:

- (a) You may use any language for the report and poster.
- (b) If you prefer, some of you may use Chinese for the presentation.
- (c) Poster size is standard one poster board.

3. Grade distribution:

- (a) Homework: 20%
- (b) Project: 30%
- (c) Exams: 50% (for midterm and final)

Wish you all the best!
